  - Aufzeichnung und Transkription der Besprechung
- AI-Notizen und Aufgaben werden in der Sprache der Besprechung bereitgestellt

# Intelligent Recap Support for Additional Languages (Premium)

The screenshot displays the Microsoft Teams interface during a meeting recap. The meeting title is "Product roadmap discussion" and it took place on "Jan 21, 2023 10:00 - 11:00". The interface includes a video grid with participants: Serena Davis, Aadil Kapoor, Mona Kane, Beth Davies, Bruno Zhao, Amanda Brady, and Danielle Booker. Below the video grid are navigation options for "Speakers", "# Topics", and "Chapters". A list of speakers shows their active periods with colored bars. On the right, a "Content" section lists items like "Product Roadmap...", "Marketing budget...", and "Marketing demo...". Below that, a "Mentions (3)" section shows three entries: "Mona Kane mentioned you", "Serena Davis mentioned you", and "Bruno Zhao mentioned you", each with a brief text snippet.

Updates

# Neuigkeiten in Microsoft Teams für Admins

- Microsoft Teams Rooms Pro Management Improved Search for rooms
- Watermark support for recording playback (Premium) → Ende Nov
- Front Row Enhancement: Active video speaker promotion for Teams Rooms on Windows
- Support Joining a Teams Live Event as Attendee for Teams Rooms on Windows
- macOS name change: Microsoft Teams to Microsoft Teams classic MDM Impact
- Extended Real-time Telemetry Retention Up To Seven Days

# Microsoft Teams Rooms Pro Management Improved Search for rooms

The screenshot displays the Microsoft Teams Rooms Pro Management interface. The top navigation bar includes 'Microsoft Teams Rooms Pro Management' and 'All Groups'. The left sidebar contains navigation options: Home, Incidents, Rooms (selected), Reports, Updates, Planning, Plan Management, Resource Accounts, Standards, Windows Autopilot, Devices, Inventory, and Settings. The main content area is titled 'Rooms' and provides a summary of room device states: Managed (16), Healthy (0), Unhealthy (4), Unmonitored (6), Suppressed (0), Onboarding (6), Sleeping (0), and Unlicensed (0). Below this, there are buttons for 'Export', 'Suppress', and 'Unsuppress'. A search bar shows '16 items', 'Filter', '1 selected', and a search input field. A filter dropdown menu is open, showing options for 'Device state: All', 'Device type: All', 'Onboarding: All', 'Needs action: All', 'Suppression: All', 'Groups: All', and 'License type: All'. The 'Device type' dropdown is expanded, listing 'MTR Windows', 'Surface Hub', 'MTR Android', 'Touch Console', and 'Teams Panel'. The main table lists room devices with columns for Name, Hostname, Account, State, Type, Suppressed, Onboarding, Needs action, Tags, Groups, and License type.

Name	Hostname	Account	State	Type	Suppressed	Onboarding	Needs action	Tags	Groups	License type

# Themen

- Green screen feature in Teams Meetings [MC529415]
- Avatars: Hardware Requirements and Service Plan Update [MC678301]
- Introducing Microsoft Teams Town hall [MC678002]

# Green screen feature in Teams Meetings

# Green screen feature in Teams Meetings

- Unterstützung für Windows und macOS Geräte mit Intel (und AMD) Chipsets
  - Mac M1/M2 are not supported.
- Automatische Deaktivierung von Background Blur und Together Mode
- Kompatibel mit Presenter Modi Standout, Side-by-Side, Reporter und PowerPoint Live Standout und ausgewechseltem Hintergrund (JPEG/PNG).
- Transparente und durchscheinende Objekte führen zu keinem guten Ergebnis
- Zu dünne Objekte werden nicht korrekt erkannt

# Avatars: Hardware Requirements and Service Plan Update

Updated October 4, 2023: IT admins have been previously informed that there will be a new service plan in your Microsoft 365 or Office 365 licenses: MESH\_AVATARS\_FOR\_TEAMS.

You may have also noticed that there is an additional service plan MESH\_AVATARS\_ADDITIONAL\_FOR\_TEAMS that was published alongside the MESH\_AVATARS\_FOR\_TEAMS service plan.

Here are the intended uses of the two service plans:

**MESH\_AVATARS\_FOR\_TEAMS** – this service plan enables or disables Mesh Avatars for Teams.

**MESH\_AVATARS\_ADDITIONAL\_FOR\_TEAMS** – this service plan is intended to differentiate any features that may be released separately between commercial and non-commercial customers due to different legal requirements

Please be mindful that there are currently no features in MESH\_AVATARS\_ADDITIONAL\_FOR\_TEAMS at this time so there are no actions needed. We will let you know when any features are added to this service plan.

----Original message below---

You will soon see a new service plan associated with your Microsoft 365 or Office 365 license: Avatars for Teams (MESH\_AVATARS\_FOR\_TEAMS).

Avatars for Teams app is also updating the minimum hardware requirements to access this feature. The new minimum specified hardware requirement is a two core CPU with 6gb RAM. Users will not be able to utilize this feature if it does not meet the minimum hardware spec. This change is due to be able to provide users with a better Avatars for Teams experience.
